

Wafaa Sayed Mohamed

Front-end Developer

✉ fefesayed522@gmail.com ☎ 01010620098 📍 Assiut, Egypt 🌐 LinkedIn 🏠 GitHub

OBJECTIVE

Recent Computer Science graduate eager to start a career as a Front End Developer, leveraging strong skills in HTML, CSS, Bootstrap, JavaScript and React to create engaging user interfaces.

TRAINING

IdeaSpace: React

10/2024 – 12/2024

I gained hands-on experience with HTML, CSS, JavaScript, and React, which allowed me to create dynamic and interactive web pages. This training has given me the foundation to confidently tackle front-end projects, and I'm excited to further develop my skills in web development.

DEPI: Front-end track

05/2024 – 12/2024

I benefited greatly from this grant by created many projects, and this was a strong start for me in the front-end field

EDUCATION

Bachelor of Computer and information, Assiut University

2019 – 2023

GPA: 3.48

Final project: A+

TECHNICAL SKILLS

Programing Language

JavaScript, TypeScript, OOP

Web Development

React, HTML/HTML5, CSS/CSS3, Bootstrap

Version Control

Git, GitHub

Tools

VSCode, Figma

PROJECTS

eCommerce (IdeaSpace final project)

11/2024 – 12/2024

using HTML, CSS, Bootstrap and React

In this project, I developed a fully responsive and user-friendly eCommerce website aimed at providing a seamless online shopping experience. The website allows users to browse products, add them to their cart—all with a clean and intuitive design. My goal was to ensure that the website was not only visually appealing but also functional across all devices, optimizing the user journey from browsing to checkout.

Fokir (first project in DEPI)

using HTML and CSS

I developed a personal portfolio website to showcase skills, projects, and experiences

Mealify (second project in DEPI)

using HTML, CSS and js

I developed a modern, responsive website for a restaurant, designed to provide an engaging and user-friendly experience for customers. The website aims to enhance the restaurant's online presence by showcasing its menu, services, location, and special offers. The primary goal was to create a visually appealing site that not only attracts customers but also allows them to easily access key information like menus, reservations, and contact details.
